**SOCIAL WORK**

Social Work, B.S.W

**WORLD LANGUAGES**

Spanish, B.A.

**Minors** are academic programs that students completing a **major** (bachelor degree program) may pursue. Usually 35 units or less, minors are helpful to students who desire a speciality but do not wish to pursue a full second major. Minor programs DO NOT award bachelor degrees. **Pre-Professions** prepare students for transfer to a professional school such as Dentistry or Nursing. Because some professional schools require bachelor degrees, many students pursue majors AND pre-professions. Pre-professions DO NOT award bachelor degrees.
